### Steps for Opening Tenders

- (1) Check and confirm the deadline for submission and opening of Tenders;
- (2) Collect all Tenders received in accordance with the procedures set in the Invitation for Tender (IFT);
- (3) Make sure that Tender Opening Committee (TOC) members are present;
- (4) Check presence of intending participating Tenderers or their authorized representatives;
- (5) Open the Tender box/sealed containers whatsoever on the date and time declared in the IFT;
- (6) Sort-out the Tenders in accordance with the IFT and Group/Package;
- (7) Enter the names of Tenderers (Tender-wise and Group/Package-wise) in the Tender Opening Sheet (TOS) maintained by the office opening the Tenders;
- (8) During the process under Step (7) above mark Tender Serial Numbers (TSN) and encircle TSN with red-ink on the sealed cover of the Tender;
- (9) Open envelopes marked "WITHDRAWAL" and read out and the corresponding tender shall not be opened, but returned to Tenderer. If the withdrawal envelope does not contain a copy of the power of attorney or a letter of authorised confirming the signature of the person duly authorised to sign on behalf of the Tenderer, the corresponding tender will be opened;
- (10) Information relevant to withdrawals or modifications by the Tenderers may be clearly noted under 'Remarks' in col. 7 of the TOS;
- (11) Next open envelopes marked "SUBSTITUTION" and read out the letter and exchange the substituted tender with the corresponding tender being substituted. The substituted tender shall not be opened, but returned to Tenderer. No Tender substitution shall be permitted unless the corresponding substitution notice contains a valid authorisation to request the substitution and is read out at Tender opening.
- (12) Open Envelopes marked "MODIFICATION" and read out the letter. No Tender modification shall be permitted unless it contains a valid authorisation;

- (13) Tear-open the sealed Tenders one by one (tender-wise and Group/ Package-wise) and again mark and encircle TSN with red-ink on the Tender (original and copies) with full dated signature of the Chairperson and other members of the Tender Opening Committee;
- (14) Immediately after tear-opening the Tenders, put TSN chronologically on the document duly encircled by red-ink as earlier done in Step (8) above;
- (15) Read-aloud the tender prices quoted by the Tenderer;
- (16) Discounts offered by any tenderer in accordance with the Tender Document shall be read out and recorded under 'Remarks' in Col. 7 of the TOS;
- (17) Check the requisite documents, requirements etc., and the Tender Security, in particular. Write the amount of Tender Security in column-3 of the Tender Opening Sheet (TOS);
- (18) Put the TSN on the Tender Security (Bank Guarantee/Pay Order/Bank Draft) with red-ink duly encircled and initialled by the Chairperson of the Tender Opening Committee (TOC);
- (19) Record the missing documents or any incompleteness and major or minor deviations in the appropriate location/pages of the Tender Document as a whole;
- (20) If there is no correction in a particular page, write comment at the bottom of that page that "no correction in this page" or so, as appropriate;
- (21) If there is any correction or overwriting in a particular page and duly initialled by the tenderer, encircle and initial that particular correction with red-ink. If there is more than one such correction and initial by the tenderer, repeat the procedures. And at the bottom of that particular page write comment that "one correction in this page with initial", "two corrections in this page with initials" and so on, as appropriate;
- (22) If there is correction in a particular page but not duly initialled by the tenderer, encircle and initial that particular correction with red-ink. And at the bottom of that particular page write comment that "one correction in this page without initial" "two corrections in this page without initial" and so on, as appropriate;
- (23) All red-ink encircled figures and words of the corresponding items and rates must be initialled by the Chairperson and other members of the TOC;

- (24) If there is any item in the Bill of Quantities against which the tenderer has not quoted any rate and/or amount i.e. kept blank, put question mark in that blank space and at the bottom of the page write comment that "No rate and/or amount quoted for item no ..... in this page";

**Total Procurement Plan for Development Project / Programme**

This part identifies the packages for Goods, Works and Services that are required under the development project/programme. It identifies each Procurement package, giving it a unique code and considers the expected cost of the package (as per the DPP/TPP), as well as the anticipated dates when the Procurement package will be supplied.

A separate Schedule, completed as shown below, should be provided for Goods, Works and Services.

Col No	Activity	Note
1	Package Number	In ascending numerical order. (e.g. GD1, GD2, GD3; WD1, WD2, WD3; or SD1, SD2, SD3 etc)
2	Description of Procurement Package	Brief description of the Procurement package, expressed in quantifiable terms. (as per DPP/TPP)
3/4	Unit/ Quantity	The unit of supply. (e.g. 1, set, sqm, lump sum) The quantity of the unit required (e.g. 1,2,3 etc; or 1,500 etc)
5	Procurement Method & Type	Procurement Method (e.g. OTM (NCT); LTM (NCT), DP, etc.)
6	Contract Approving Authority	State here the approving authority that gave approval to the Tender / Proposal Evaluation Report.
7	Source of Funds	Source of Funds (GoB or Own) or Development Partners (IDA, ADB, EU etc)
8	Estimated cost in Tk million	Express the anticipated cost in Taka million as per the DPP/TPP. e.g. 50 Lakh would be 5 million, 1 Crore 50 Lakh 10 thousand would be 150 million 10 thousand
	Indicative Dates	These are the three key dates of any Procurement activity, the date at which the Procuring Entity invites Tenders, the date at which a Contract is expected to be signed and the expected date of completion of the Contract.

Col No	Activity	Note
9	Pre-Qualification / Expression of Interest	Not generally used in Goods, so this shaded column is left blank Pre-Qualification (if applicable) may be used in Works. EOI is used in Services

Annual Procurement Plan for Development & Revenue Budgets

Time bound Procurement assists a Procuring Entity to effectively plan its Procurement requirements and is an important and useful tool used to monitor the progress of Procurement (a) to ensure that it does not go astray; (b) to ensure that early problems with slippage can be dealt with promptly; and (c) can form a useful Annual Plan for Procurement.

A separate Schedule, completed as follows, should be provided for Goods, Works and Services. Also a separate schedule should be used for Development or Revenue Budget.

Col No.	Activity	Note
1	Package Number	
2	Description of Procurement Item	To be copied from the Total Procurement Plan for Development
3 /4	Unit & Quantity	Project / Programme for those packages required in this financial year.
5	Procurement Method & Type	
6	Contract Approving Authority	
7	Source of Funds	
8	Estimated Cost In Tk. Million	In the case of Procurement using funds from the Revenue Budget the Columns shall be completed based upon information in the Revenue Budget.
9	Time Code for Process	In the first row on each form examples have been given to assist the Procuring Entity in completion of the Forms
10	Not Used (Goods)	Column 10 does not apply for Goods Procurement
10	Pre-Qualification (Works)	If Pre-Qualification is used then enter the anticipated process time in the "Planned Days" Column 11. Include time for Advertising, Responding to Advert, Evaluation and Approval (this may be as high as 80—90 days in some cases).
10	Advertise EOI	Determine the time it will take from issue of EOI, receiving responses, evaluation and approval to Issue of RFP date and enter the number of days in the "Planned Days" box in Column 11.

Col No.	Activity	None
11	Advertising Tender	Always show "0" in the "Planned Days" box in Column 11.
11	Advertising Tender	Always show "0" in the "Planned Days" box in Column 11.
11	Issue RFP	Always show "0" in the "Planned Days" box in Column 10.
12	Opening of Tender / Proposal	
13	Evaluation of Tender / Proposal	The date for each activity will automatically be calculated and appear in the "Planned Dates" box.
14	Approval of Award	
15	Notification of Award	
16	Signing of Contract	Now determine the number of days it is expected that each activity will take place and enter the time for that activity in the relevant "Planned Days" box. Use the Public Procurement Processing & Approval Procedures (PPPAP) to determine the minimum dates applicable to each Procurement package method.
17	Completion of Contract	<p><u>Planned Dates &amp; Planned Days :</u></p> <p>For each Procurement package, consider the Date on which the Goods, Works or Services are required to be completed and enter the date in Planned Dates (Column 17).</p> <p>Then show the expected duration of the Contract (in Days) in Planned Days immediately under the above Date (Column 17).</p>
18	Total Time (in Days)	This is automatically calculated by adding together all the pre-determined number of "Planned Days", it will change if any of the Planned Days are changed.

All the three contract files relating to the particular package shall be maintained together as a group or package. If in a goods package, say Package No. G1 there are 3 contracts then the contract files shall indicate as G1: Contract -1 (3), G1: Contract 2 (3), G1: Contract 3 (3). All the 3 contracts shall be serially maintained under one package. The file number may include ---/---/Procurement/ G1: Cont-1 (3)/2004-06. The format of the checklist should be filled in stating the records maintained in a particular file. Where part file is opened, some of the columns of the checklist of records will remain blank concerning the records not maintained in a particular part file.
- (6) The concerned officer of the Procuring Entity should indicate in writing in the format in which part file or main file the records appearing blank are available.
- (7) If relevant papers relating to a particular Procurement are maintained by more than one branch of the Procuring Entity, the relevant branch shall transfer the records to the main Procurement file.

This situation may arise in case of documents/records maintained by the Accounts Branch who may retain the original documents for audit or other purposes.

### Ask K t **General Considerations for the Employment of Consultants**

- (1) Appointment of Consultants, local or international, at times is a crucial element in the project cycle. Depending on the nature of a project, combination of both local and International Consultants in implementing any project or activity can be more useful and effective. A project may not be ready for financing without Consultant's Services. An aid agreement may not be effective till a Consultant is in place. A tender document may not be issued or even prepared without a Consultant. A system may not be introduced or reformed without the Services of Consultant. At the conceptual or project preparation stage it is to be thoroughly scrutinized to identify the areas where the Services of the Consultant is necessary if the technology involved is complex and not locally available and the concerned agency has no experience. Therefore, where it is considered expedient that the service of a Consultant is required, appointment of local or International Consultants should be considered. However, the Procuring Entities should be selective in appointment of Consultants. International Consultants may be appointed when local expertise is not available. While using International Consultants arrangements should be made to ensure a mechanism for transfer of technology or expertise. Human resources development should form an integral part of any technical assistance programme.
- (2) Consultants are generally appointed for the following purposes:
  - (a) Pre-investment Studies: These comprise the investigations that normally precede decisions to go forward with specific projects. These studies determine the investment needs and the type of interventions needed to attain the desired goal. These include identification of priority area of investment, need for policy adjustment, feasibility studies for project or programme, improvement of existing management practices etc.
  - (b) Preparation Services: These comprise the technical, economic or other assignment required to fully define a project and prepare it for implementation. These Services normally include the preparation of a project, collection of relevant Documents, information and data, setting objectives, identifying activities for attaining objectives, requirement of physical and financial resources, preparation of Procurement Documents.
  - (c) Implementation Services: These relate to actual implementation of the activities using resources already identified during preparation phase. Implementation shall follow the time chart already worked out and revised from time to time. Implementation may be of the nature of construction of a complex road, building or a bridge, procurement and installation of goods and equipment. It may be of the nature of reforming a system in order to improve efficiency and ensure better performance. This involves supervision, management, inspection and providing necessary technical Services.
  - (d) Technical Assistance: These comprise a wide range of intellectual and professional Services along with other support service, such as development and sector planning and institution building, including organization and management (O&M) studies, staffing requirement and training needs and assistance in the implementation of study recommendations.

- (3) Technical Assistance Projects have a clearly stated policy to build local capacity in course of execution of the projects. The objective is to facilitate transfer of knowledge and technology through the interaction between international and Local Consultants during the implementation of the project.
- (4) For each position created in consulting service appropriate attention should be made to compatible international/ local positions. International Consultants can be of any national of eligible countries including Bangladesh.

**a. Association of Consultants with International & Local Consulting Firms:**

- (1) For development projects implemented in Bangladesh by the GOB with the support of development partners, may require the engagement of international consulting firms. Each international consulting firm is encouraged to seek participation and obtain full range of expertise by associating with local consulting firm(s) or entities in a joint venture or sub-consultancy, as appropriate.
- (2) International consulting firms may include national Consultants in their payroll and are entitled to apply their Fees/Charges for the Local Consultants provided they are recruited as their team.
- (3) The local consulting firms will have Local Consultants in their payroll and are entitled to apply their Fees/Charges on the Local Consultants working for them.
- (4) If a Bangladeshi firm is short-listed to compete with international firms, it may use the Services of both international and local Consultants and is entitled to apply Fees/Charges for both categories of Consultants.
- (5) In a joint participation of international and local consulting firms member firms will mutually decide the payroll arrangements.

**b. Billing Rates and Modus Operandi:**

- (1) Billing rates shall be calculated on staff-month basis. The billing rates of consulting firms usually consist of staff remuneration, social charges, overhead charges, and the Consultant's fee.
- (2) The billing rate will vary depending on the nature of the consulting firm. As guidance, an example of typical billing rate calculation is provided below:

Item	Component	International/ National Firm
1	Staff Remuneration	
2	Social Charges	40% of Remuneration
3	Overhead	60—100% of Remuneration
4	Consultant's Fee	10—15% of (1+2+3)
